As a...	I want to...	So that I...	Time Estimate (in days)
Scientist (General User)	I want to interact with a UI in the form of a webpage	Can view the sensor readings	20
Scientist (General User)	See live readigs of the sensors	Know what state the system is in	15
Scientist (General User)	See incremental (weekly, monthly etc.) readings on graphs	Make assumptions based on long term change	8
Scientist (General User)	I want the web UI to give me a notification when a reading raises concern	So that I can go make changes to the aquaponics system's parameters	3
Maintenance engineer	See whether the sensors are working correctly	So that I can recalibrate or replace them	15
Scientist (General User)	Print the readings as a report	Can look at them offline and away from the computer	2
